"The Truth is Ever Believed From One Who Has Never Deceived!"

Last week this space promised you important information. Here it is on I arose, ate breakfast—rolls and coffee—and commenced buying goods for future schedule time. Owing to the rapid inroads made upon American forests in the new. I bought first all kinds of Furniture—enough to last this year out—and to—last year good timber for manufacturing purposes is becoming searce and correspondingly high. Quarter saved oak has advanced 50 per cent. in the last of alays. Finished iron and steel has advanced 100 per cent, in the last its odays. Varnish, give and furniture hardware, like cattle, have all had an unbeard of advance. Everything entering into the construction of furniture and machines has had a severe advance. In self protection the manufacturer bas had to advance the original product. Chairs and Bedroom Suits have advanced 20 per cent, steel wire Spring and Cots 50 per cent. Farm Wagons 125 per cent., Machines and Farm unplements 30 per cent. and Flows 10 per cent. In the last three months. On the night of the 13th day of April, after having eaten a very hearty supper composed of

A Horrible Nightmare.

I dreamed that I visited furniture factories without number, endeavoring to buy furniture and at prices then prevailing, and in every case was met with this statement: "Mr. Winter, owing to the severe advance in materials we have been compelled to advance our cutter line 2) per cent." Intring my attention to machines and farm implements I met the same result only worse. It was a horrible dream. I avoid and earlier thought the matter over and determined.

RENNEA, Aug. 22.—Tuesday was

Maitre Labori's day at the Lycee,
where Capt. Alfred Dreyfus is standing trial on the charge of treason.
Labori was the central figure of the
season. As the Dreyfus drama nnrolied before a crowded court Tuesday
forencon, his tall, witing-like form,
draped in a long black gown, bordered
with eemine, sitting in front of the
footlights, was the magnet which,
from the moment the curtain was run
up until it fell at noon, drew all regarda, not merely glances of ouriosity,
but the steady gaze of admiration.
Has mere presence brought brightness
into the courtroom and fresh light into
the proceeding.
Labori is a gladiator, and always
speaks to touch his foot the quick.
Let there be the slightest opening in
his opponent's defense and he thrusts
home.
Tuesday, when M. Demange found

Rogert, Billott, Mereier and Boisdeffre, with the other military witnesses gave one another anxious glances and put their healst together to exclanage obviously disagreeable impressions as Labori plied the smaller military fry, who occupied the witness stand successfully Tuesday with disconcerting questions. Labori connered Mereier on the Schneider letter, which the latter had used in evidence, and which Coi.

Labori curnered Mereier on the Schneider letter, which the latter had used in evidence, and which Col. Schneider had repullated as a forgery. The general was surprised when Labors suidenly demanded that Mereier be receiled. Evidently he hoped the tribunal would support him in refusing to explain how he got a copy of a letter which was of later date than his incumbency at the ministry of war. But Labor was not to be denied. He insisted that Mercier should give some explanation. Then, after hesitating. Mereier declared that he would assume all the responsibility attenting to his possession of the document. This, as Lab ri intended it should be, was a demonstration of communication of the document. It is, as Lab ri intended it should be, was a demonstration of communities and the special state of the demonstration of communities of the state of the demonstration of communities of the state of the demonstration of the demonstration of the demonstration of communities of the demonstration of the demonstration of the ministry of war. When Labori had attained his object and forced a confession of grave violation of law on the part of ten. Labori asked how it was, if that
was so, that Lajoux was still receiving
monthly payments.

Commandant Itollin, completely taken aback, replied that a cessation of
payments was under consideration.

Questions and the replies given was
that Lajoux was being paul by the war
office to keep out of the way in the interests of Esterhazy, whom Lajoux, in
a letter read in court, offering revelations in the Dreyfus affair, indicated
as the real traitor. M. Labori's cross
examination in this matter, therefore,
was a distinct advantage to the accused.

r Forty Negroes Behiod the Bars Little Ruck, Suspecied of the Out-rages on White Weimen.

LITTLE ROCK, Ark., Aug. 28.—Over 40 Nerroes were in the Pulaski county jail Tueslay night, as a result of a concerted effort on the part of the au thorities to run down the men who, i few days ago, committed assaults of few white women in this city. E Wright was positively identified Tues

therrites to run down the men who, a few days ago, committed assaults on five white women in this city. Bit Wright was positively identified Tuesday by Mrs. Kennedy as her assailant, and was held to the grand Jury without ball. Every precaution has been taken to prevent a lynching. A large mass meeting of Negroes was held Tuesday night. The meeting was ealled by leading Negroes who are calcavoring to help run down and punish the guilty parties. They are opposed to lynching but are anxious to see the guilty ones legally punished. The wholesale arrests Tuesday have aroused much self-energy and their sales Tuesday of arms and ammittion have been unprecedented, the majority of sales being made to Negroes.

Bakers' Bread.

The bakers' bread of today is not the bakers' bread of twenty years ago. Science and study has developed this food product more than any thermanufactured article of consumption. The F. H. Traxel Company of this city is now the leading bread bakers of this section, simply because they have given study and close attention for years to making Bread that will please the public. Even now there is an impression that prevails among the few that bakers bread is unwholesome and unfit for family use. We will admit that there are many bakers who make their bread the same as their forefathers did years ago, and hence this impression is justifiable to those who never had an opportunity to get Bread made or its merits. The F. H. Traxel Co. has done its share to supply this section, enabling people to get Bread that will meet with every requirement. We make the assertion that this Bread will meet with every requirement because we have evidence of it, and the evidence is the increasing demand wherever sold.
